WEEKLY NEWSLETTER: 2008-40

Prolonged opening hours at the NASDAQ OMX Baltic exchanges

The NASDAQ OMX Baltic exchanges would like to inform you that starting from February 2nd, 2009, the trading period for all sub-markets of Riga, Tallinn and Vilnius stock exchanges will be extended by two hours until 16:00 EET.

As a result of this enhancement we believe that the Baltic market will become more attractive to foreign investors and more competitive against the other stock exchanges in the EU region. You will find detailed information about the structure and time schedules for all Baltic submarkets in the enclosed appendix. Please see PDF document (Extended trading_Baltic exchanges.pdf) attached to the mail including this newsletter.

Please note! The information about the extension of trading hours is not public and it cannot be disclosed publicly so far.
