NASDAQ OMX to disseminate new indexes in TARGIN on November 17th, 2008

On November 17th, 2008 NASDAQ OMX will begin disseminating 12 new indexes that are based on sustainability screening. The 12 new indexes will become a part of the Nordic equity product. The indexes will be available through TARGIN and File Delivery System (FDS).

The indexes are calculated as free float market capitalized weighted indexes and are reviewed on a semi annually basis. The indexes are calculated as both price and gross indexes and are also available as capped versions.

The indexes have a base date of November 17th, 2008 with base value 500. The indexes will be disseminated every 60 seconds in TARGIN. Historical time series will be sent out on November 17th.

Details about test environments and ID specifications will be presented when available.
